Changelog

1.519

Erweiterungen /Verbesserungen

[HM-2461] Einbindung HM-LC-Sw1-DR (Schaltaktor, Hutschiene)

[HM-2458] Einbindung HMW-_LC-Bl1-DR-2 (Rolladenaktor, Hutschiene)

[HM-2451] Einbindung HM-ES-PMSw1-DR (Funkschaltaktor m. Leistungsmessung, Hutschiene)

[HM-2450] Einbindung HM-LC-Sw1-Pl-CT (Funkschaltaktor mit Klemmanschluss)

1.518

Erweiterungen / Verbesserungen

[HM-2444] Einbindung Funk-Fernbedienung mit Display [HM-RC-Dis-H-x-EU]

[HM-2425] Darstellung des realen Dimm-Levels bei Dimmern mit virtuellen Kanälen

[HM-2445] Einbindung des Unterputzsenders-Funksenders HM-RC-2-PBU-FM

[HM-2443] Einbindung des Treppenhausautomaten HM-LC-Sw1-DR

[HM-2420] Einbindung der Funk-Fernbedienungen HM-RC4-3, HM-Key4-3 und HM-Sec4-3

Bugfixes
[HM-2447] Fehlende Übersetzungen einiger Parameter des Bewegungsmelder HM-Sen-MDIR-WM55

1.517

Bugfixes
[HM-2440]   Ein HM-ES-PMSw1-Pl (Funkschaltaktor mit Leistungsmessung) mit einer Fw. < 2.5 ließ sich nicht mehr anlernen.

1.516

Erweiterungen / Verbesserungen
[HM-2430]   Einbindung HM-ES-TX-WM (Energie-Meter Gas/Strom, Vorgesehen als Bausatz für die Veröffentlichung im ELVjournal 1/15)

[HM-2431]   Einbindung HM-Sen-MDIR-WM55 (Funk-Bewegungsmelder mit Tastenpaar, Vorgesehen als Bausatz für die Veröffentlichung im ELVjournal 2/15)

[HM-2432]   Einbindung HM-Sen-DB-PCB (Türklingel-Sensor, Vorgesehen als Bausatz für die Veröffentlichung im ELVjournal 6/14)

[HM-2433]   Einbindung von internationalen Versionen der Schalt-/Mess-Aktoren

[HM-2434]   Einbindung von internationalen Versionen der Schaltaktoren

1.515

Bugfixes
[HM-2410] Fehlermeldungen der Sirenenansteuerung übersetzt.

[HM-2414] Scrollbare Raum-/Gewerke-Liste.

Erweiterungen / Verbesserungen
[HM-2416]   Einbindung HM-RC-8 (Handsender)

[HM-2417]   Einbindung HM-Sec-SCo (Optischer Tür-/Fensterkontakt)

[HM-2419]   Einbindung HM-MOD-EM-8 (Funk- Sendemodul 8fach Platine Batterie.

Nur Basisfunktion = als Button nutzbar)

[HM-2428]   Einbindung HM-PB-2-FM (Wandtaster)

[HM-2429]   Einbindung HM-MOD-Re-8 (Funk- Schaltaktor 8fach Platine Batterie)

1.514

Bugfixes

[HM-2403]   Die Kanalbezeichnung erscheint bei der Kanalauswahl unter Programme doppelt.

[HM-2409]   Auf Geräten mit der Seriennummer beginnend mit K ließ sich das Firmwareimage nicht installieren.

1.513

Bugfixes

[HM-2376]   HM-LC-Dim1TPBU-FM - unter Umständen (SHORT_ACTION_TYPE = INACTIVE) fehlerhafte Konfigurationsanzeige korrigiert.

[HM-2377]   Bei einer Verknüpfung zwischen Fernbed. u. Rolladenaktor mit AES fiel das Relais immer wieder ab. Korrigiert.

[HM-2378]   HM-CC-RT-DN - Wenn 2 Thermostate dem gleichen Raum oder Gewerk zugeordnet waren, wurde der Status u. "Status & Bedienung" falsch angezeigt.

[HM-2380]   Favoriten auf der Startseite hatten keinen Scrollbalken mehr.

Erweiterungen / Verbesserungen

[HM-2367]   Einbindung HM-TC-IT-WM-W-EU (Wandthermostat)

1.512

Bugfixes

[HM-2351]   Unter bestimmten Umständen kam es vor, dass bei den Kanalparametern des HM-Sen-Wa-Od ein nicht zulässiger Parameter angezeigt wurde.

[HM-2369]   Die Profile der internen Tasten des HM-LC-Bl1-SM wurden im Expertenmodus angezeigt.

Erweiterungen / Verbesserungen

[HM-2353]   Einbindung HM-ES-PMSw1-Pl (Funkschaltaktor mit Leistungsmessung).

1.511

Bugfixes

[HM-2365]   Mit der Version 1.510 läßt sich das Wochenprogramm der Wandthermostate HM-CC-TC nicht übertragen

1.510

Erweiterungen / Verbesserungen

[HM-2350]   Einbindung HM-CC-RT-DN (Heizungsthermostat)

[HM-2356]   Der Regensensor HM-Sen-RD-O erhält mit der Firmwareversion 1.4 4 zusätzliche
              Kanalparameter zur Feinjustierung der Regenerkennung.

1.509
Bugfixes

[HM-1317]   Geräte werden nicht unter Gewerk u. Raum angezeigt, wenn diesen eine
              Systemvariable zugeordnet ist.

[HM-1383]   Beim Kanalparameter "LED-Leuchtzeit(gn/rt)" wurde ein Wert > 1.0 fälschlicherweise
              als unzulässiger Wert gemeldet.

HM-2337]   Verknüpfung Rauchmelder - MP3-Funkgong fehlerhaft.

[HM-2342]   Info-Text Programme und Verknüpfung bei niedriger Bildschirmauflösung u. U. nicht
              lesbar.

[HM-2348]   Der Kanalparameter "Filterzeit" wurde u. U. fehlerhaft übertragen.

Erweiterungen / Verbesserungen
[HM-2317] Einbindung HM-WDS30-OT2-SM (Temperatur-Differenz-Sensor)

[HM-2320] Einbindung HM-RC-4-2 (Handsender)

[HM-2321] Einbindung HM-RC-Key4-2 (Handsender)

[HM-2322] Einbindung HM-RC-Sec4-2 (Handsender)

[HM-2323] Einbindung HM-PB-6-WM55 (Wandtaster)

[HM-2324] Einbindung HM-Sen-RD-O (Regensensor)

[HM-2339] Einbindung HM-LC-Sw4-Ba-PCB (4-fach Schaltaktor, batteriebetrieben)

1.508
Bugfixes:
[HM-1372] Speicherproblem, verursacht durch den RFD

Erweiterungen /Verbesserungen
[HM-1370]   Kapazitiver Füllstandsmesser - Zeichnung der Hilfe war nicht aussagekräftig.

[HM-1367]   Kapazitiver Füllstandsmesser - Behälterhöhe Quader u. stehender Zylinder anpassen
              (300 statt 310 cm)

[HM-1365]   Stecker-Steckdosen-Geräte für den neuen Steckereinsatz hinzufügen.

[HM-1352]   Control für kapazitiven Füllstandsmesser, welches die vorhandene Restmenge in
              Litern ausgibt

1.507

Bugfixes:
[HM-1359] Selbst ausgestellte Zertifikate werden von der HomeMatic Zentrale wieder akzeptiert

1.506

Erweiterungen / Verbesserungen

[HM-1331]   Bei An- (ab Fw. 2.0) u. Abschnittsdimmern (ab Fw. 0.8) wird bei der internen Gerätetaste der lange Tastendruck zur Verfügung gestellt.

Bugfixes

[HM-1221]   Sortierung direkter Verknüpfung nach Empfängern wurde falsch dargestellt.

[HM-1329]   Die Konfigurationsmöglichkeit interner Gerätetasten war u. bestimmten Umständen nicht mehr zugänglich.

[HM-1332]   Verknüpfungen mit einem gelöschten Partner wurden nicht mehr angezeigt. Dadurch konnte die Verknüpfung nicht mehr entfernt werden.

[HM-1339]   Das Firmwareupdate eines HWM-IO12-Sw14-DR brach u. U. mit einer Fehlermeldung ab.

Bekannte Fehler

- Programme reagieren nicht auf eine Systemvariable vom Type "Zeichenkette"

1.505

Erweiterungen / Verbesserungen

[HM-1139]   Einbindung HM-LC-x-PBU-FM

[HM-1224]   Die Kanäle 7 - 14 des HMW-IO12-Sw14-DR (ab Fw. 0.6) k.nnen auf PWM umgestellt werden (siehe 'Bekannte Fehler').

[HM-1243]   Einbindung HM-Sen-MDIR-O (Bewegungsmelder).

[HM-1244]   Einbindung HM-Dis-TD-T (stromlose Statusanzeige).

[HM-1255]   Einbindung von Wettersensoren in die Repeaterliste des Funkrepeaters.

[HM-1258]   Beim Update der HomeMatic Version von 1.503 auf 1.504 ging das Ger.t HMW-IO12-Sw14-DR verloren. Das Update von 1.503 auf 1.505 ist jetzt problemlos möglich.

[HM-1286]   Der MP3-Funkgong enthält eine komfortable Eingabemaske zum Einstellen der gewünschten Werte innerhalb von Programmen.

[HM-1316]   Einbindung der Funkstrecken CCU - Gerät in die Repeaterliste des Funkrepeaters.

Bugfixes

[HM-1207]   Unter Umständen wurde beim Löschen eines Gerätes fälschlicherweise ein Hinweis ausgegeben, es seien noch Verknüpfungen vorhanden.

[HM-1268]   Der Raumname konnte nicht geändert werden.

[HM-1272]   Das Profil einer Verknüpfung zwischen virtueller Fernbedienung u. MP3-Funkgong war fehlerhaft.

[HM-1279]   Konfigurationsparameter des HM-LC-BL1-FM waren nicht zugänglich.

[HM-1292]	Das erste Ger.t ohne Namen wurde in der Geräteliste unter Einstellungen ausgeblendet.
[HM-1296]	Fehler bei der Verknüpfung zwischen Bewegungsmeldern und Dimmern behoben.
[HM-1309]	Fehler des HomeMatic-LAN-Interfaces bei Verwendung als Reichweitenverlängerung behoben.
[HM-1314]	Beim Erstellen direkter Verknüpfungen hing sich die WebUI auf, wenn das Zeichen '#' im Namen verwendet wird.

Bekannte Fehler

Bei einem HMW-IO12-Sw14-DR, der unter der HomeMatic Firmwareversion 1.504 angelernt wurde, können die Kanäle 7 - 14 nicht auf PWM-Ausgabe geschaltet werden.

Um die PWM-Funktionalit.t nutzen zu können, müssen die Geräte abgelernt und anschließend neu angelernt werden.

1.504

Erweiterungen / Verbesserungen

[HM-1131]	Systemvariablen behalten auch nach einem Neustart der Zentrale ihren Wert.
[HM-1137]	DORMA Türöffner ist neu hinzugekommen.
[HM-1140]	HM-PB-2-WM55 ist neu hinzugekommen.
[HM-1147]	DORMA 3-Kanal Fernbedienung (atent) ist neu hinzugekommen.
[HM-1148]	DORMA 4-Kanal Fernbedienung (BRC-H) ist neu hinzugekommen.
[HM-1150]	HM -LC-Sw4-WM (HomeMatic Funk-Schaltaktor, 4-fach) ist neu hinzugekommen.
[HM-1155]	WebUI Programm-Seite: Performance-Verbesserung
[HM-1156]	HM-LC-Sw1-BA-PCB (HomeMatic 4-Kanal-Schaltaktor, 4-fach) ist neu hinzugekommen.
[HM-1160]	HM-OU-LED16 (HomeMatic Statusanzeige) ist neu hinzugekommen.
[HM-1167]	HM-OU-CFM-PL (MP3-Funkgong) ist neu hinzugekommen.
[HM-1169]	Dimmer ab Firmware 2.0 enthalten jetzt virtuelle Kanäle.
[HM-1170]	HM-SYS-SRP-PL (Funk-Repeater) ist neu hinzugekommen.
[HM-1201]	Neuste Firmware HMW-IO-12-Sw14-DR ist eingebunden worden.

Bugfixes

[HM-1111]	Systemsicherheitsschlüssel: Sonderzeichen führten zu Fehlern.
[HM-1117]	Fehler bei der Einstellung der Endzeit für Party/Urlaub beim HM-CC-TC gefixt.
[HM-1120]	XML-RPC: Fehlerhafte Antwort beim HomeMatic Funk-Wandtaster mit Display (HM-Dis-WM).
[HM-1145]	HMW-IO-12-Sw14-DR: Bei Überlauf an Kanal 21 - 26 wurden unsinnige Werte ausgegeben.

| [HM-1153] | HomeMatic Display-Wandtaster: In den Texten des Display-Wandtasters kamen ungültige XML-Zeichen ('\0') vor. |
| [HM-1157] | ReGaHss stürzte mit einem Segmentation-Fault ab, wenn es ohne Parameter gestartet wurde. |

1.503

Erweiterungen / Verbesserungen

[HM-348]	Verfügbarkeit neuer Firmware-Versionen wird auf der Startseite angezeigt
[HM-886]	Die HomeMatic Zentrale erzeugt nun eine Servicemeldung, wenn sich Rauchmelder nach 2 Wochen nicht selbstständig melden
[HM-1113]	VPN-Lösung von meine-homematic.de wurde aktualisiert

Bugfixes

| [HM-1109] | Heizungssteller: Special-Values VENT_OPEN und VENT_CLOSED wurden wieder hinzugefügt |

1.502

Erweiterungen / Verbesserungen

[HM-718]	Die rechte Spalte der Startseite zeigt nun einen Scrollbalken, wenn dort viele Systemvariablen angezeigt werden
[HM-917]	Es gibt einen abgesicherten Modus für Firmware-Updates und Systembackups, in dem keine Zusatzsoftware gestartet wird
[HM-964]	Status und Bedienung wurden zu einem Menüpunkt zusammenfassen
[HM-1049]	Der VPN-Zugang von http://meine-homematic.de wird direkt unterstützt
[HM-1062]	BidCos-RF Konfiguration: Kleinschreibung bei Seriennummer und Zugriffscode wird nun akzeptiert
[HM-1063]	BidCos-RF Konfiguration: Das aktuell gewählte Gateway ist im Dialog "Interface-Zuordnung" vorausgewählt
[HM-1068]	Der Hinweis auf nicht gesetzten Sicherheitsschlüssel auf der Startseite wurde entfernen
[HM-1095]	Die Fehlermeldung "invalid session" ist nun eine Information

Bugfixes

[HM-981]	Geräte sind in den Favoriten nicht mehr bedienbar, wenn nur deren Status angezeigt werden soll
[HM-1003]	Direkte Verknüpfung von Homematic Wired lassen sich über Bedienung wieder auslösen
[HM-1007]	Probleme beim Einsatz von HomeMatic LAN-Adaptern mit gesetztem Sicherheitsschlüssel behoben

[HM-1017]   JavaScript-Fehler beim Stopp-Button von HomeMatic Wired Jalousien wurde behoben

[HM-1084]   Fehler beim Anlegen von Systemvariablen wurde beseitigt

[HM-1092]   Programme können nun wieder zu Favoriten hinzugefügt werden, auch wenn die erste Zeile von Scripten kurz ist

1.501

Erweiterungen / Verbesserungen

[HM-1008]   In BidCoS-RF Konfiguration können Geräte nun einem HM-CFG-LAN Adapter zugeordnet werden

[HM-989]   Texte in den Einstellungen von HomeMatic Wired Geräten für Taster und Schalter angepasst

Bugfixes

[HM-983]   Fehler bei direkten Verknüpfungen mit der Keymatic behoben

[HM-982]   Systemprotokoll lässt sich wieder exportieren

[HM-987]   Der Zustand von KeyMatic und WinMatic kann wieder abgefragt werden

[HM-988]   Fehler in den Einstellungen des HMW-IO-12-FM behoben

1.500

Neue Geräte

[HM-654] - HMW-Sen-SC-12-FM (12 Kanal Schlie.er-Kontakt Hutschiene) ist neu hinzugekommen.

[HM-752] - HMW-IO-12-FM (12-Kanal I/O Modul) ist neu hinzugekommen.

[HM-870] - HM-Sec-SCI-3-FM (Funk-Schlie.er-Kontakt-Interface) hinzufügen

[HM-876] - HM-LC-Dim1T-FM (1 Kanal Abschnitt-Dimmer) ist neu hinzugekommen.

[HM-877] - HM-LC-Dim1T-CV (1 Kanal Abschnitt-Dimmer) ist neu hinzugekommen.

[HM-878] - HM-LC-Dim1T-PL (1 Kanal Abschnitt-Dimmer) ist neu hinzugekommen.

[HM-930] - HM-PB-4Dis-WM (Display-Wandtaster Aufputz) ist neu hinzugekommen.

[HM-931] - HM-LC-Sw4-DR (4 Kanal Funkschalter Hutschiene) ist neu hinzugekommen.

[HM-936] - HM-LC-Sw1-PB-FM (1 Kanal Funk-Schalter) ist neu hinzugekommen.

Erweiterungen / Verbesserungen

[HM-57]   "Sinnlose" Verknüpfungskombinationen sind nun in der Oberfläche gesperrt.

[HM-72]   Es wurde eine Firewallfunktion eingebaut, um den Zugriff aus dem lokalen Netz zu beschränken.

[HM-393]   Die Dialogfenster "Netzwerkeinstellungen" und "Netzwerk-Sicherheit" wurden zusammengeführt.

[HM-536]	In der Programmerstellung gibt es nun eine Debug-Möglichkeit für Skripte.
[HM-563]	Es existiert nun ein Datentyp "Text" für Systemvariablen.
[HM-571]	Das Farbschema wurde bearbeitet.
[HM-699]	Profile "Hoch", "Runter" und "Hoch/Runter" für den HM-Sen-EP und die Jalousienaktoren wurden hinzugef.gt.
[HM-704]	Die Darstellung der Servicemeldungen für den Abschnittdimmer wurden bearbeitet.
[HM-776]	HomeMatic Konfiguratinsadapter (HM-CFG-LAN) kann .
[HM-799]	Eine angepasste WebUI für PDAs, MDAs und Smartphones ist neu hinzugekommen.
[HM-810]	Die Anzahl von Alarm- und Servicemeldungen können in Programmen als Trigger verwendet werden.
[HM-850]	Ein Easy-Mode-Profil für die direkte Verknüpfung von Funk-Jalousie-Steuerung mit Rauchmelder-Teams wurde erstellt.
[HM-856]	Im Fenster "Zusatzsoftware" wurde der Löschen-Button mit einer Sicherheitsabfrage versehen.
[HM-874]	Zusatzsoftware kann konfiguriert werden.
[HM-915]	Die alte Kanalauswahl unter dem Dialogfeld "Wert eingeben" wurde gegen den neuen, schnelleren Dialog ausgetauscht.
[HM-925]	Der Text "Letzte Aktualisierung" in der Statusanzeige wurde in "Letzte .Änderung" geändert.

Bugfixes

[HM-396]	Die Systemvariable "Regenmenge gestern" wird jetzt aktualisiert.
[HM-572]	Servicemeldungen der Alarmsirenen-Ansteuerung tauchten doppelt auf.
[HM-611]	Das flag "bedienbar" wird nun korrekt umgesetzt.
[HM-633]	Das Flag "sichtbar" wird nun korrekt umgesetzt.
[HM-650]	Beim Löschen eines teamfähigen Geräts verblieb das zugehörige Teamger.t in der Geräteliste.
[HM-720]	Die Aktiv-Anzeige für Statusanzeige von Programmen wurde nicht aktualisiert.
[HM-891]	Diverse Rechtschreibfehler wurden behoben.
[HM-893]	Beim IE8 wurde statt dem Favicon der HomeMatic Zentrale das IE-Logo dargestellt.
[HM-908]	Die Prozentanzeige des Fensters "Lade Konfigurationsdaten" wurde korrigiert.
[HM-955	Beim Löschen eines Geräts konnte u.U. die Logikschicht abstürzen.

1.403

Neue Geräte

[HM-750]	HM-LC-Dim2T-SM (Abschnittsdimmer) ist neu hinzugekommen.

[HM-818] - HM-RC-19-SW ist neu hinzugekommen.

[HM-836] - HM-OU-CF-PL (Funkgong) ist neu hinzugekommen.

Erweiterungen / Verbesserungen

[HM-575]   Easymode für die Verknüpfung zwischen HM-CC-SCD (C02-Sensor) und WinMatic, Dimmaktoren, Schaltaktoren sowie Jalousieaktoren wurde hinzugef.gt.

Bugfixes

[HM-838]   Firmware-Updates funktionieren wieder (Bug aus 1.402).

1.402

Erweiterungen / Verbesserungen

[HM-823] - Vergrößerung des nutzbaren Arbeitsspeichers durch Reduzierung der RAM-DISK auf 24 MByte

Bugfixes

[HM-812]   Darstellungsproblem von Favoriten auf der Startseite beim Internet Explorer behoben

[HM-822]   Klickt man in der Geräteliste bei einem Kanal auf "Programme", wird nun nicht mehr der Funktionstest ausgeführt

[HM-828]   Rechtschreibfehler beim Löschen eines Geräts behoben

1.401

Erweiterung / Verbesserungen

[HM-665]   Umkonfigurieren bedrahteter Komponenten von Taster zu Schalter und umgekehrt ist ab jetzt nur dann möglich, wenn keine direkten Verknüpfungen bestehen

[HM-736]   Easymode-Profile für HomeMatic Wired Dimmaktoren wurden in der Darstellung vereinheitlicht

[HM-745]   Konfigurationsdaten werden erst bei Bedarf geladen

[HM-765]   Easymode-Profile für HomeMatic Wired Schaltaktoren wurde in der Darstellung vereinheitlicht

[HM-767]   Easymode für Verknüpfung zwischen Virtuellen Tasten und HMW-IO-4-FM hinzugefügt

[HM-771]   Fehlermeldungen vom Typ "Eine Komponente reagiert nicht mehr" können geschlossen werden

Bugfixes

[HM-629]   Beim Easymode-Profil "Position Anfahren" des HM-LC-Bl1-FM wurden diverse Elemente falsch dargestellt

[HM-667]   Hatte man das Anlegen einer Profilvorlage mit der Return-Taste bestätigt, wurde die Anmeldeseite angezeigt

[HM-711]   Beim Easymode der Verknüpfung zwischen HM-RC-19 und dem HM-CC-TC wurde beim Profil "Absenktemperatur" ein Fehler angezeigt

[HM-726]   Der Filter für die Spalte "Gewerk" in der Gewerkeübersicht hat nicht funktioniert und wurde entfernt

[HM-751]   Wenn man in der Programmerstellung eine Aktivit.t verzögert ausführen wollte, wurde die Zeiteinheit nicht übernommen

[HM-764]   Die Geräteliste wurde nicht aktualisiert, wenn teamfähige Geräte gelöscht oder Geräte "später automatisch" gelöscht wurden

[HM-768]   Die Grad-Celsius-Anzeige im Systemprotokoll wurde fehlerhaft dargestellt

[HM-769]   Favoriten auf der Startseite wurden nicht aktualisiert

[HM-772]   Diverse gerätespezifische Parameter konnten unzugänglich werden, wenn der Wert 0 eingetragen wurde

1.400

Neue Geräte

[HM-634] - HMW-Sen-SC-12-DR ist neu hinzugegkommen.

[HM-422] - HM-Sec-SFA ist neu hinzugekommen.

HM-Sec-WDS ist neu hinzugekommen.

Erweiterungen / Verbesserungen

[HM-110] - Diverse Kanal- und Gerätelisten werden schneller geladen.

[HM-112] - Es sind mehr Sicherheitsabfragen vorgesehen, z.B. beim Löschen von Programmen.

[HM-145] - Instruktion f.rs Anlernen per Seriennummer einbauen.

[HM-146] - Funk-Kombisensor: Zusätzlich zur Gradanzeige wird die Himmelsrichtung angezeigt.

[HM-288] - Posteingang: Fertig-Button am Ger.t ist immer aktiv.

[HM-319] - Die Geräteliste wurde überarbeitet. Grundeinstellungen öffnen sich nun per Klick auf das Gerät bzw. den Kanal.

[HM-384] - Zeitmodul: Das Serienmuster "Täglich" / Jeden Tag" ist voreingestellt.

[HM-386] - Neue Programme sind standardmäßig aktiv.

[HM-464] - Die Darstellung des Hauptmenüs wurde überarbeitet.

[HM-487] - HMW-IO-4-FM: Das Umkonfigurieren von Sender auf Empfänger (und umgekehrt) wird verhindert, falls direkte Verknüpfungen bestehen.

[HM-508] - Profil für interne Tasten ist nun konfigurierbar.

[HM-546] - Verknüpfungen auf der Hilfeseite starten in neuem Tab.

[HM-524] - Kanallisten: Auswahl-Button wurde entfernt; die Auswahl erfolgt nun durch Klick auf den Kanal.

[HM-453] - Kanallisten: Spalten "Typenbezeichnung", "Kategorie" und ".bertragungsmodus" wurden entfernt.

[HM-349] - Hinweise beim Funktionstext sind abh.ngig vom Ger.te- und Kanaltyp.

[HM-600] - Die Darstellung der Easymode-Profile f.r Dimmer und Schaltaktoren wurden vereinheitlicht.

Bugfixes

[HM-41] - HM-RC-19: Von der Zentrale konnten keine Kanal- und Systemzustände an das Display übertragen werden.

[HM-64] - Auf der Startseite wurden Systemvariablen vom Typ Werteliste nicht aktualisiert.

[HM-80] - Laden der Geräteliste verursachte u.U. ein Session-Timeout.

[HM-158] - Die virtuellen Fernbedienungen ließen sich löschen.

[HM-164] - Außensensoren in Favoriten generierten zwei Blöcke in der Positionierungsvorschau, in der Favoritendarstellung wurde jeweils nur ein Block dargestellt.

[HM-167] - Einstellung Heizungsregler: Wurden neue Zeitabschnitte hinzugef.gt, konnten dabei dauerhaft ungültige Zeiten eingetragen werden.

[HM-186] - Wurde einem Kanal eine Systemvariable zugewiesen, tauchten zusätzliche Elemente in der Statusanzeige auf.

[HM-189] - WinMatic Akku: Der Eintrag Kategorie hatte gefehlt.

[HM-250] - Wettersensoren ließen sich bei den Favoriten als bedienbar konfigurieren.

[HM-258] - In den Easymodes der bedrahteten Komponenten wurde nicht erkannt, ob die Eingänge als Schalter oder Taster konfiguriert sind. Sie wurden immer als Taster behandelt.

[HM-279] - Die Zentrale erfuhr den wahren Sperrungszustand eines Geräts nicht.

[HM-368] - Ungenutzte Sessions beim Start der WebUI werden vermieden.

[HM-449] - Programmanzahl wurde in der Geräteliste falsch dargestellt und daher entfernt.

[HM-455] - "Sperrung aktiv" konnte nicht ausgewertet werden.

[HM-503] - HM-CC-TC: Displayhinterleuchtungszeit wurde nicht gesetzt.

[HM-552] - Login / Logout: Logo lief über den Arbeitsbereich hinaus.

[HM-639] - Ein Benutzer konnte sich bei der Bearbeitung ihm zugewiesener Favoritenlisten aussperren.

1.304

Bugfixes

[HM-429] - Falsche Uhrzeit bzw. keine Uhrzeit wurde an Raumregler übertragen.

[HM-446] - Falsche Profile bei RHS und SC beim direkten Verknüpfen über die Zentrale behoben.

[HM-457] - Fehler bei der Impulseinstellung des HM-Sen-EP behoben.

[HM-473] - Unter "Geräteparameter einstellen" war die Anzahl der Sendeversuche beim HM-Sec-TiS nicht übersetzt.

1.303
Erweiterungen / Verbesserungen
[HM-440] - Freie Zeiteingabe unter 1 Sekunde bei direkten Verknüpfungen

1.302
Bugfixes
[HM-437] - Fehler nach Update auf V1.301 beim Tür-Fenster-Kontakt behoben.

1.301
Erweiterungen / Verbesserungen
[HM-408] - Bewegungsmelder HM-Sec-MDIR und HM-Sen-MDIR-SM hinzugef.gt.

[HM-351] - Bessere Darstellung der Kanalparameter des HM-Sen-EP.

[HM-282] - Session-Timeout ist jetzt zwischen 3 und 10 Minuten frei einstellbar.

Bugfixes
[HM-340] - Fehlerhafte Darstellung der Favoriten im Firefox 3.

[HM-360] - Ampersent ("&") in Bezeichnungen führt zu leerer kanalliste.

1.300
Erweiterungen / Verbesserungen
[HM-79] - Status von Funk-Aktoren (Schalter, Dimmer) werden aktualisiert wenn diese vom Netz getrennt waren.

[HM-180] - Beim Update der Zentralen-Firmware wird der Benutzer in einem Popup-Fenster auf das Löschen des Browser-Cache hingewiesen.

[HM-208] - Die Ladezeiten für Kanallisten sind verkürzt worden (bis auf Gewerkeauswahl).

 - Kaskadieren von speziellen HomeMatic Geräten (Rauchmelder) als Team möglich.

 - Das Zeitmodul wurde überarbeitet.

 - HM-SwI-3-FM ist neu hinzugekommen.

 - HM-Sec-SD ist neu hinzugekommen.

 - HM-Sec-WDS ist neu hinzugekommen.

 - HM-WDS40-TH-I ist neu hinzugekommen.

Bugfixes

[HM-6] - Firmwareupdate läuft ohne ausgewählte Firmware scheinbar durch. Entsprechende Fehlermeldung wird jetzt angezeigt.

[HM-16] - Falsche Anzeige von Servicemeldungen an der Fernbedienung HM-RC-19(-B) nach Anmeldung.

[HM-21] - Darstellung der Systemvariablen auf der Startseite war nicht korrekt.

[HM-30] - Wenn sich der Zeitpunkt des Sonnenaufgangs von einem Tag auf den anderen um größer/gleich eine Minute nach vorne (Richtung früher) verschoben hat, gibt die "Astrofunktion nachts" morgens "wahr" zur.ck, obwohl bereits Tag ist.

[HM-34] - Langsame Ausführungsgeschwindigkeit von Programmen, wenn viele Komponenten angelernt sind. Die Performance bei eingehenden Ereignissen wurde verbessert.

[HM-50] - Systemkonfiguration, Geräte, Homematic-Zentrale => "Einstellen" erzeugt einen leeren Bildschirm.

[HM-65] - Nach Änderungen an Systemvariablen reagieren die zugehörigen Programme nicht mehr korrekt.

[HM-82] - Im Fenster "Geräte anlernen" wird für jedes neue Ger.t ein zusätzliches Leerzeichen zwischen der Anzahl und "neue Geräte" generiert.

[HM-94] - Wird ein Programm auf "aktiv" gesetzt, werden unter Umständen sofort die "dann"-Anweisungen ausgeführt.

[HM-97] - Nach Umstellung auf Sommerzeit stimmen Sonnen-Auf- und -Untergangszeiten nicht mehr.

[HM-124] - Konfigurationsdialog für Zeiteinstellung wird bei falschen Daten fehlerhaft dargestellt. Fehlermeldung im WebUI angepasst.

[HM-166] - Bei Verknüpfung von Tür-Fenster-Kontakt mit Heizungsregler wird das Eingabefeld "Wert eingeben" nicht angezeigt.

[HM-181] - Geräteparameter HM-RC-12 sind teilweise nicht ins deutsche übersetzt.

[HM-233] - Nicht bedienbare Geräte/Kanäle sind unter Favoriten bedienbar.

 - .dev-Dateien werden nicht bei allen Änderungen gespeichert

 - Easymode Heizungsregler: Bei der freien Werteingabe erscheint das zuständige Eingabefeld nicht.

 - Der Schnittstellenprozess (Funk) kann in einen Zustand geraten, in dem versucht wird, Konfigurationsdaten an die Zentrale zu übertragen äußert sich in sehr langsamen Reaktionsverhalten.

1.200 -> 1.202

Bugfixes

 - Bei vielen angelernten Geraten führt das Laden der Gerateliste zu einem Session-Timeout. Timeout wurde von 3 Minuten

   auf 5 Minuten erh.ht. Eine Teillösung für die langen Ladezeiten wird es voraussichtlich in Version 1.300 geben.

1.200 -> 1.201

Bugfixes

- Zeit- und Positionseinstellung: Ost und West waren bei der Anzeige des Längengrades vertauscht

- Zeit- und Positionseinstellung: Eingabe fehlerhafter Werte für Längengrad / Breitengrad wird abgefangen

- Zeit- und Positionseinstellung: Bereits fehlerhaft gespeicherte Werte für Längengrad / Breitengrad führen nicht mehr dazu, dass der Dialog nicht komplett aufgebaut wird

- Bei einigen Zeitzoneneinstellungen wurde die Zeit nicht an den Kommunikationsprozessor übertragen

- Für die Stellantriebe (HM-CC-VD) wurde auch bei Lowbat keine Servicemeldung erzeugt. Diese Geräte müssen neu an die Zentrale angelernt werden,

damit die Änderung wirksam wird, falls das nicht wegen der Änderung in 1.200 bereits geschehen ist.

- Für einige andere Geräte wurde auch bei Lowbat in einigen Fällen keine Servicemeldung erzeugt. Neuanlernen ist nicht nötig.

- Status von Dimmern und Schaltern wird jetzt aktualisiert, wenn diese vom Netz getrennt waren

- Beim Ansprechen eines Gerätes über die virtuelle Funk-Fernbedienung wurde im Fehlerfall keine Servicemeldung erzeugt

- Systemvariablen vom Typ Werteliste sind jetzt auf der Startseite möglich

1.100 -> 1.200

Erweiterungen / Verbesserungen

- Bediencontrol f.r den Heizungsregler hinzugef.gt

Bugfixes

- Konfiguration des Heizungsreglers HM-CC-TC, diverse Bugfixes

- Einige Kanalhervorhebungen auf den Gerätebildern fehlten

- Sonderzeichen in Systemvariablen führten zu Fehlverhalten

- Bei der Verwendung von Sensoren in Programmen kam es zu Servicemeldungen (Konfigurationsdaten...), die nicht wieder gelöscht wurden.

- Favoriten: diverse Bugfixes

- Gewerke- und Raumauswahl: diverse Bugfixes

- Statusanzeige: Controls waren fälschlicherweise bedienbar

- Logikschicht: diverse Bugfixes

- Verknüpfung erstellen funktionierte bei bestimmten Funk-Geräteadressen nicht korrekt

- Für die Stellantriebe (HM-CC-VD) wurde bei Fehlern keine Servicemeldung erzeugt. Diese Geräte müssen neu an die Zentrale angelernt werden, damit die Änderung wirksam wird.

1.000 -> 1.100

Erweiterungen / Verbesserungen

- HM-SEC-WIN: Geschwindigkeit und Wiederverschlusszeit kann in Programmen gesetzt werden

- HM-SEC-KEY: Wiederverschlusszeit kann in Programmen gesetzt werden

- Funk-Schaltaktoren: Einschaltdauer kann in Programmen gesetzt werden

- Funk-Dimmer: Einschaltdauer und Rampenzeit kann in Programmen gesetzt werden

- Wassersensor ist neu hinzugekommen

- HM-SEN-EP ist neu hinzugekommen

- HM-CC-TC ist neu hinzugekommen

- HM-CC-VD ist neu hinzugekommen

- HM-RC-19 ist neu hinzugekommen

- Konfiguration: Freie Eingabe bei Zeit- und Prozent-Konfigurationsparametern ist jetzt möglich

- Performanceverbesserung bei gleichzeitig eingehenden Ereignissen (z.B. Wettersensoren)

- logtar.cgi entfernt

Bugfixes

- Negative Temperaturen von einigen Sensoren als +80.0.C verarbeitet.

- Kernel: Fehler im Treiber für das Flash-Dateisystem. Datenverlust möglich.

- Logikschicht: Servicemeldungen, die beim Systemstart bereits vorhanden waren, wurden in der Oberfläche nicht angezeigt

- Viele gleichzeitig angelernte Geräte (geht nur bei BidCoS-Wired) wurden nicht alle in die Logikschicht übernommen

- Funkkommunikation stürzt ab, wenn über eine virtuelle Taste ein nicht mehr angelerntes Ger.t geschaltet wird

- Im WebUI angezeigte Anzahl der direkten Verknüpfungen wurde beim Löschen inkonsistent

- Webserver: Beim Herunterladen von großen Dokumenten (lange Gerätelisten, lange Verknüpfungslisten und Systembackups)

    über langsame Verbindungen (z.B. DSL-Uplink) konnte es vorkommen, da. die Dokumente ohne Fehlermeldung im Browser

    nur teilweise übertragen wurden.

  - logtar.cgi entfernt

Licenses

GNU General Public License, Version 2 (GPLv2)

```
            GNU GENERAL PUBLIC LICENSE
               Version 2, June 1991

 Copyright (C) 1989, 1991 Free Software Foundation, Inc.,
 51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA
 Everyone is permitted to copy and distribute verbatim copies
 of this license document, but changing it is not allowed.

                    Preamble

   The licenses for most software are designed to take away your
 freedom to share and change it.  By contrast, the GNU General Public
 License is intended to guarantee your freedom to share and change free
```

software--to make sure the software is free for all its users. This
General Public License applies to most of the Free Software
Foundation's software and to any other program whose authors commit to
using it. (Some other Free Software Foundation software is covered by
the GNU Lesser General Public License instead.) You can apply it to
your programs, too.

  When we speak of free software, we are referring to freedom, not
price. Our General Public Licenses are designed to make sure that you
have the freedom to distribute copies of free software (and charge for
this service if you wish), that you receive source code or can get it
if you want it, that you can change the software or use pieces of it
in new free programs; and that you know you can do these things.

  To protect your rights, we need to make restrictions that forbid
anyone to deny you these rights or to ask you to surrender the rights.
These restrictions translate to certain responsibilities for you if you
distribute copies of the software, or if you modify it.

  For example, if you distribute copies of such a program, whether
gratis or for a fee, you must give the recipients all the rights that
you have. You must make sure that they, too, receive or can get the
source code. And you must show them these terms so they know their
rights.

  We protect your rights with two steps: (1) copyright the software, and
(2) offer you this license which gives you legal permission to copy,
distribute and/or modify the software.

  Also, for each author's protection and ours, we want to make certain
that everyone understands that there is no warranty for this free
software. If the software is modified by someone else and passed on, we
want its recipients to know that what they have is not the original, so
that any problems introduced by others will not reflect on the original
authors' reputations.

  Finally, any free program is threatened constantly by software
patents. We wish to avoid the danger that redistributors of a free
program will individually obtain patent licenses, in effect making the
program proprietary. To prevent this, we have made it clear that any
patent must be licensed for everyone's free use or not licensed at all.

  The precise terms and conditions for copying, distribution and
modification follow.

                    GNU GENERAL PUBLIC LICENSE
   TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

  0. This License applies to any program or other work which contains
a notice placed by the copyright holder saying it may be distributed
under the terms of this General Public License. The "Program", below,
refers to any such program or work, and a "work based on the Program"
means either the Program or any derivative work under copyright law:
that is to say, a work containing the Program or a portion of it,
either verbatim or with modifications and/or translated into another
language. (Hereinafter, translation is included without limitation in
the term "modification".) Each licensee is addressed as "you".

Activities other than copying, distribution and modification are not
covered by this License; they are outside its scope. The act of
running the Program is not restricted, and the output from the Program
is covered only if its contents constitute a work based on the
Program (independent of having been made by running the Program).

Whether that is true depends on what the Program does.

  1. You may copy and distribute verbatim copies of the Program's
source code as you receive it, in any medium, provided that you
conspicuously and appropriately publish on each copy an appropriate
copyright notice and disclaimer of warranty; keep intact all the
notices that refer to this License and to the absence of any warranty;
and give any other recipients of the Program a copy of this License
along with the Program.

You may charge a fee for the physical act of transferring a copy, and
you may at your option offer warranty protection in exchange for a fee.

  2. You may modify your copy or copies of the Program or any portion
of it, thus forming a work based on the Program, and copy and
distribute such modifications or work under the terms of Section 1
above, provided that you also meet all of these conditions:

    a) You must cause the modified files to carry prominent notices
    stating that you changed the files and the date of any change.

    b) You must cause any work that you distribute or publish, that in
    whole or in part contains or is derived from the Program or any
    part thereof, to be licensed as a whole at no charge to all third
    parties under the terms of this License.

    c) If the modified program normally reads commands interactively
    when run, you must cause it, when started running for such
    interactive use in the most ordinary way, to print or display an
    announcement including an appropriate copyright notice and a
    notice that there is no warranty (or else, saying that you provide
    a warranty) and that users may redistribute the program under
    these conditions, and telling the user how to view a copy of this
    License. (Exception: if the Program itself is interactive but
    does not normally print such an announcement, your work based on
    the Program is not required to print an announcement.)

These requirements apply to the modified work as a whole. If
identifiable sections of that work are not derived from the Program,
and can be reasonably considered independent and separate works in
themselves, then this License, and its terms, do not apply to those
sections when you distribute them as separate works. But when you
distribute the same sections as part of a whole which is a work based
on the Program, the distribution of the whole must be on the terms of
this License, whose permissions for other licensees extend to the
entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest
your rights to work written entirely by you; rather, the intent is to
exercise the right to control the distribution of derivative or
collective works based on the Program.

In addition, mere aggregation of another work not based on the Program
with the Program (or with a work based on the Program) on a volume of
a storage or distribution medium does not bring the other work under
the scope of this License.

  3. You may copy and distribute the Program (or a work based on it,
under Section 2) in object code or executable form under the terms of
Sections 1 and 2 above provided that you also do one of the following:

    a) Accompany it with the complete corresponding machine-readable
    source code, which must be distributed under the terms of Sections

1 and 2 above on a medium customarily used for software interchange;
or,

    b) Accompany it with a written offer, valid for at least three
    years, to give any third party, for a charge no more than your
    cost of physically performing source distribution, a complete
    machine-readable copy of the corresponding source code, to be
    distributed under the terms of Sections 1 and 2 above on a medium
    customarily used for software interchange; or,

    c) Accompany it with the information you received as to the offer
    to distribute corresponding source code. (This alternative is
    allowed only for noncommercial distribution and only if you
    received the program in object code or executable form with such
    an offer, in accord with Subsection b above.)

The source code for a work means the preferred form of the work for
making modifications to it. For an executable work, complete source
code means all the source code for all modules it contains, plus any
associated interface definition files, plus the scripts used to
control compilation and installation of the executable. However, as a
special exception, the source code distributed need not include
anything that is normally distributed (in either source or binary
form) with the major components (compiler, kernel, and so on) of the
operating system on which the executable runs, unless that component
itself accompanies the executable.

If distribution of executable or object code is made by offering
access to copy from a designated place, then offering equivalent
access to copy the source code from the same place counts as
distribution of the source code, even though third parties are not
compelled to copy the source along with the object code.

    4. You may not copy, modify, sublicense, or distribute the Program
except as expressly provided under this License. Any attempt
otherwise to copy, modify, sublicense or distribute the Program is
void, and will automatically terminate your rights under this License.
However, parties who have received copies, or rights, from you under
this License will not have their licenses terminated so long as such
parties remain in full compliance.

    5. You are not required to accept this License, since you have not
signed it. However, nothing else grants you permission to modify or
distribute the Program or its derivative works. These actions are
prohibited by law if you do not accept this License. Therefore, by
modifying or distributing the Program (or any work based on the
Program), you indicate your acceptance of this License to do so, and
all its terms and conditions for copying, distributing or modifying
the Program or works based on it.

    6. Each time you redistribute the Program (or any work based on the
Program), the recipient automatically receives a license from the
original licensor to copy, distribute or modify the Program subject to
these terms and conditions. You may not impose any further
restrictions on the recipients' exercise of the rights granted herein.
You are not responsible for enforcing compliance by third parties to
this License.

    7. If, as a consequence of a court judgment or allegation of patent
infringement or for any other reason (not limited to patent issues),
conditions are imposed on you (whether by court order, agreement or
otherwise) that contradict the conditions of this License, they do not
excuse you from the conditions of this License. If you cannot

distribute so as to satisfy simultaneously your obligations under this
License and any other pertinent obligations, then as a consequence you
may not distribute the Program at all. For example, if a patent
license would not permit royalty-free redistribution of the Program by
all those who receive copies directly or indirectly through you, then
the only way you could satisfy both it and this License would be to
refrain entirely from distribution of the Program.

If any portion of this section is held invalid or unenforceable under
any particular circumstance, the balance of the section is intended to
apply and the section as a whole is intended to apply in other
circumstances.

It is not the purpose of this section to induce you to infringe any
patents or other property right claims or to contest validity of any
such claims; this section has the sole purpose of protecting the
integrity of the free software distribution system, which is
implemented by public license practices. Many people have made
generous contributions to the wide range of software distributed
through that system in reliance on consistent application of that
system; it is up to the author/donor to decide if he or she is willing
to distribute software through any other system and a licensee cannot
impose that choice.

This section is intended to make thoroughly clear what is believed to
be a consequence of the rest of this License.

  8. If the distribution and/or use of the Program is restricted in
certain countries either by patents or by copyrighted interfaces, the
original copyright holder who places the Program under this License
may add an explicit geographical distribution limitation excluding
those countries, so that distribution is permitted only in or among
countries not thus excluded. In such case, this License incorporates
the limitation as if written in the body of this License.

  9. The Free Software Foundation may publish revised and/or new versions
of the General Public License from time to time. Such new versions will
be similar in spirit to the present version, but may differ in detail to
address new problems or concerns.

Each version is given a distinguishing version number. If the Program
specifies a version number of this License which applies to it and "any
later version", you have the option of following the terms and conditions
either of that version or of any later version published by the Free
Software Foundation. If the Program does not specify a version number of
this License, you may choose any version ever published by the Free
Software
Foundation.

  10. If you wish to incorporate parts of the Program into other free
programs whose distribution conditions are different, write to the author
to ask for permission. For software which is copyrighted by the Free
Software Foundation, write to the Free Software Foundation; we sometimes
make exceptions for this. Our decision will be guided by the two goals
of preserving the free status of all derivatives of our free software and
of promoting the sharing and reuse of software generally.

                            NO WARRANTY

  11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY
FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN
OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES
PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED

OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF
MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS
TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE
PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING,
REPAIR OR CORRECTION.

  12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING
WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR
REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES,
INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING
OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED
TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY
YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER
PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE
POSSIBILITY OF SUCH DAMAGES.

                     END OF TERMS AND CONDITIONS

            How to Apply These Terms to Your New Programs

  If you develop a new program, and you want it to be of the greatest
possible use to the public, the best way to achieve this is to make it
free software which everyone can redistribute and change under these terms.

  To do so, attach the following notices to the program. It is safest
to attach them to the start of each source file to most effectively
convey the exclusion of warranty; and each file should have at least
the "copyright" line and a pointer to where the full notice is found.

    <one line to give the program's name and a brief idea of what it does.>
    Copyright (C) <year> <name of author>

    This program is free software; you can redistribute it and/or modify
    it under the terms of the GNU General Public License as published by
    the Free Software Foundation; either version 2 of the License, or
    (at your option) any later version.

    This program is distributed in the hope that it will be useful,
    but WITHOUT ANY WARRANTY; without even the implied warranty of
    MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the
    GNU General Public License for more details.

    You should have received a copy of the GNU General Public License along
    with this program; if not, write to the Free Software Foundation, Inc.,
    51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA.

Also add information on how to contact you by electronic and paper mail.

If the program is interactive, make it output a short notice like this
when it starts in an interactive mode:

    Gnomovision version 69, Copyright (C) year name of author
    Gnomovision comes with ABSOLUTELY NO WARRANTY; for details type `show
w'.
    This is free software, and you are welcome to redistribute it
    under certain conditions; type `show c' for details.

The hypothetical commands `show w' and `show c' should show the appropriate
parts of the General Public License. Of course, the commands you use may
be called something other than `show w' and `show c'; they could even be
mouse-clicks or menu items--whatever suits your program.

You should also get your employer (if you work as a programmer) or your

school, if any, to sign a "copyright disclaimer" for the program, if
necessary. Here is a sample; alter the names:

  Yoyodyne, Inc., hereby disclaims all copyright interest in the program
  `Gnomovision' (which makes passes at compilers) written by James Hacker.

  <signature of Ty Coon>, 1 April 1989
  Ty Coon, President of Vice

This General Public License does not permit incorporating your program into
proprietary programs. If your program is a subroutine library, you may
consider it more useful to permit linking proprietary applications with the
library. If this is what you want to do, use the GNU Lesser General
Public License instead of this License.

GNU Lesser General Public License, Version 2.1 (LGPLv2.1)

                 GNU LESSER GENERAL PUBLIC LICENSE
                    Version 2.1, February 1999

 Copyright (C) 1991, 1999 Free Software Foundation, Inc.
 51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA
 Everyone is permitted to copy and distribute verbatim copies
 of this license document, but changing it is not allowed.

[This is the first released version of the Lesser GPL. It also counts
 as the successor of the GNU Library Public License, version 2, hence
 the version number 2.1.]

                           Preamble

  The licenses for most software are designed to take away your
freedom to share and change it. By contrast, the GNU General Public
Licenses are intended to guarantee your freedom to share and change
free software--to make sure the software is free for all its users.

  This license, the Lesser General Public License, applies to some
specially designated software packages--typically libraries--of the
Free Software Foundation and other authors who decide to use it. You
can use it too, but we suggest you first think carefully about whether
this license or the ordinary General Public License is the better
strategy to use in any particular case, based on the explanations below.

  When we speak of free software, we are referring to freedom of use,
not price. Our General Public Licenses are designed to make sure that
you have the freedom to distribute copies of free software (and charge
for this service if you wish); that you receive source code or can get
it if you want it; that you can change the software and use pieces of
it in new free programs; and that you are informed that you can do
these things.

  To protect your rights, we need to make restrictions that forbid
distributors to deny you these rights or to ask you to surrender these
rights. These restrictions translate to certain responsibilities for
you if you distribute copies of the library or if you modify it.

  For example, if you distribute copies of the library, whether gratis
or for a fee, you must give the recipients all the rights that we gave
you. You must make sure that they, too, receive or can get the source
code. If you link other code with the library, you must provide

complete object files to the recipients, so that they can relink them
with the library after making changes to the library and recompiling
it. And you must show them these terms so they know their rights.

  We protect your rights with a two-step method: (1) we copyright the
library, and (2) we offer you this license, which gives you legal
permission to copy, distribute and/or modify the library.

  To protect each distributor, we want to make it very clear that
there is no warranty for the free library. Also, if the library is
modified by someone else and passed on, the recipients should know
that what they have is not the original version, so that the original
author's reputation will not be affected by problems that might be
introduced by others.

  Finally, software patents pose a constant threat to the existence of
any free program. We wish to make sure that a company cannot
effectively restrict the users of a free program by obtaining a
restrictive license from a patent holder. Therefore, we insist that
any patent license obtained for a version of the library must be
consistent with the full freedom of use specified in this license.

  Most GNU software, including some libraries, is covered by the
ordinary GNU General Public License. This license, the GNU Lesser
General Public License, applies to certain designated libraries, and
is quite different from the ordinary General Public License. We use
this license for certain libraries in order to permit linking those
libraries into non-free programs.

  When a program is linked with a library, whether statically or using
a shared library, the combination of the two is legally speaking a
combined work, a derivative of the original library. The ordinary
General Public License therefore permits such linking only if the
entire combination fits its criteria of freedom. The Lesser General
Public License permits more lax criteria for linking other code with
the library.

  We call this license the "Lesser" General Public License because it
does Less to protect the user's freedom than the ordinary General
Public License. It also provides other free software developers Less
of an advantage over competing non-free programs. These disadvantages
are the reason we use the ordinary General Public License for many
libraries. However, the Lesser license provides advantages in certain
special circumstances.

  For example, on rare occasions, there may be a special need to
encourage the widest possible use of a certain library, so that it becomes
a de-facto standard. To achieve this, non-free programs must be
allowed to use the library. A more frequent case is that a free
library does the same job as widely used non-free libraries. In this
case, there is little to gain by limiting the free library to free
software only, so we use the Lesser General Public License.

  In other cases, permission to use a particular library in non-free
programs enables a greater number of people to use a large body of
free software. For example, permission to use the GNU C Library in
non-free programs enables many more people to use the whole GNU
operating system, as well as its variant, the GNU/Linux operating
system.

  Although the Lesser General Public License is Less protective of the
users' freedom, it does ensure that the user of a program that is
linked with the Library has the freedom and the wherewithal to run

that program using a modified version of the Library.

  The precise terms and conditions for copying, distribution and
modification follow. Pay close attention to the difference between a
"work based on the library" and a "work that uses the library". The
former contains code derived from the library, whereas the latter must
be combined with the library in order to run.

                    GNU LESSER GENERAL PUBLIC LICENSE
     TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

  0. This License Agreement applies to any software library or other
program which contains a notice placed by the copyright holder or
other authorized party saying it may be distributed under the terms of
this Lesser General Public License (also called "this License").
Each licensee is addressed as "you".

  A "library" means a collection of software functions and/or data
prepared so as to be conveniently linked with application programs
(which use some of those functions and data) to form executables.

  The "Library", below, refers to any such software library or work
which has been distributed under these terms. A "work based on the
Library" means either the Library or any derivative work under
copyright law: that is to say, a work containing the Library or a
portion of it, either verbatim or with modifications and/or translated
straightforwardly into another language. (Hereinafter, translation is
included without limitation in the term "modification".)

  "Source code" for a work means the preferred form of the work for
making modifications to it. For a library, complete source code means
all the source code for all modules it contains, plus any associated
interface definition files, plus the scripts used to control compilation
and installation of the library.

  Activities other than copying, distribution and modification are not
covered by this License; they are outside its scope. The act of
running a program using the Library is not restricted, and output from
such a program is covered only if its contents constitute a work based
on the Library (independent of the use of the Library in a tool for
writing it). Whether that is true depends on what the Library does
and what the program that uses the Library does.

  1. You may copy and distribute verbatim copies of the Library's
complete source code as you receive it, in any medium, provided that
you conspicuously and appropriately publish on each copy an
appropriate copyright notice and disclaimer of warranty; keep intact
all the notices that refer to this License and to the absence of any
warranty; and distribute a copy of this License along with the
Library.

  You may charge a fee for the physical act of transferring a copy,
and you may at your option offer warranty protection in exchange for a
fee.

  2. You may modify your copy or copies of the Library or any portion
of it, thus forming a work based on the Library, and copy and
distribute such modifications or work under the terms of Section 1
above, provided that you also meet all of these conditions:

    a) The modified work must itself be a software library.

    b) You must cause the files modified to carry prominent notices

stating that you changed the files and the date of any change.

    c) You must cause the whole of the work to be licensed at no
    charge to all third parties under the terms of this License.

    d) If a facility in the modified Library refers to a function or a
    table of data to be supplied by an application program that uses
    the facility, other than as an argument passed when the facility
    is invoked, then you must make a good faith effort to ensure that,
    in the event an application does not supply such function or
    table, the facility still operates, and performs whatever part of
    its purpose remains meaningful.

    (For example, a function in a library to compute square roots has
    a purpose that is entirely well-defined independent of the
    application. Therefore, Subsection 2d requires that any
    application-supplied function or table used by this function must
    be optional: if the application does not supply it, the square
    root function must still compute square roots.)

These requirements apply to the modified work as a whole. If
identifiable sections of that work are not derived from the Library,
and can be reasonably considered independent and separate works in
themselves, then this License, and its terms, do not apply to those
sections when you distribute them as separate works. But when you
distribute the same sections as part of a whole which is a work based
on the Library, the distribution of the whole must be on the terms of
this License, whose permissions for other licensees extend to the
entire whole, and thus to each and every part regardless of who wrote
it.

Thus, it is not the intent of this section to claim rights or contest
your rights to work written entirely by you; rather, the intent is to
exercise the right to control the distribution of derivative or
collective works based on the Library.

In addition, mere aggregation of another work not based on the Library
with the Library (or with a work based on the Library) on a volume of
a storage or distribution medium does not bring the other work under
the scope of this License.

  3. You may opt to apply the terms of the ordinary GNU General Public
License instead of this License to a given copy of the Library. To do
this, you must alter all the notices that refer to this License, so
that they refer to the ordinary GNU General Public License, version 2,
instead of to this License. (If a newer version than version 2 of the
ordinary GNU General Public License has appeared, then you can specify
that version instead if you wish.) Do not make any other change in
these notices.

  Once this change is made in a given copy, it is irreversible for
that copy, so the ordinary GNU General Public License applies to all
subsequent copies and derivative works made from that copy.

  This option is useful when you wish to copy part of the code of
the Library into a program that is not a library.

  4. You may copy and distribute the Library (or a portion or
derivative of it, under Section 2) in object code or executable form
under the terms of Sections 1 and 2 above provided that you accompany
it with the complete corresponding machine-readable source code, which
must be distributed under the terms of Sections 1 and 2 above on a
medium customarily used for software interchange.

If distribution of object code is made by offering access to copy
from a designated place, then offering equivalent access to copy the
source code from the same place satisfies the requirement to
distribute the source code, even though third parties are not
compelled to copy the source along with the object code.

   5. A program that contains no derivative of any portion of the
Library, but is designed to work with the Library by being compiled or
linked with it, is called a "work that uses the Library". Such a
work, in isolation, is not a derivative work of the Library, and
therefore falls outside the scope of this License.

   However, linking a "work that uses the Library" with the Library
creates an executable that is a derivative of the Library (because it
contains portions of the Library), rather than a "work that uses the
library". The executable is therefore covered by this License.
Section 6 states terms for distribution of such executables.

   When a "work that uses the Library" uses material from a header file
that is part of the Library, the object code for the work may be a
derivative work of the Library even though the source code is not.
Whether this is true is especially significant if the work can be
linked without the Library, or if the work is itself a library. The
threshold for this to be true is not precisely defined by law.

   If such an object file uses only numerical parameters, data
structure layouts and accessors, and small macros and small inline
functions (ten lines or less in length), then the use of the object
file is unrestricted, regardless of whether it is legally a derivative
work. (Executables containing this object code plus portions of the
Library will still fall under Section 6.)

   Otherwise, if the work is a derivative of the Library, you may
distribute the object code for the work under the terms of Section 6.
Any executables containing that work also fall under Section 6,
whether or not they are linked directly with the Library itself.

   6. As an exception to the Sections above, you may also combine or
link a "work that uses the Library" with the Library to produce a
work containing portions of the Library, and distribute that work
under terms of your choice, provided that the terms permit
modification of the work for the customer's own use and reverse
engineering for debugging such modifications.

   You must give prominent notice with each copy of the work that the
Library is used in it and that the Library and its use are covered by
this License. You must supply a copy of this License. If the work
during execution displays copyright notices, you must include the
copyright notice for the Library among them, as well as a reference
directing the user to the copy of this License. Also, you must do one
of these things:

    a) Accompany the work with the complete corresponding
    machine-readable source code for the Library including whatever
    changes were used in the work (which must be distributed under
    Sections 1 and 2 above); and, if the work is an executable linked
    with the Library, with the complete machine-readable "work that
    uses the Library", as object code and/or source code, so that the
    user can modify the Library and then relink to produce a modified
    executable containing the modified Library. (It is understood
    that the user who changes the contents of definitions files in the
    Library will not necessarily be able to recompile the application

to use the modified definitions.)

    b) Use a suitable shared library mechanism for linking with the
    Library. A suitable mechanism is one that (1) uses at run time a
    copy of the library already present on the user's computer system,
    rather than copying library functions into the executable, and (2)
    will operate properly with a modified version of the library, if
    the user installs one, as long as the modified version is
    interface-compatible with the version that the work was made with.

    c) Accompany the work with a written offer, valid for at
    least three years, to give the same user the materials
    specified in Subsection 6a, above, for a charge no more
    than the cost of performing this distribution.

    d) If distribution of the work is made by offering access to copy
    from a designated place, offer equivalent access to copy the above
    specified materials from the same place.

    e) Verify that the user has already received a copy of these
    materials or that you have already sent this user a copy.

  For an executable, the required form of the "work that uses the
Library" must include any data and utility programs needed for
reproducing the executable from it. However, as a special exception,
the materials to be distributed need not include anything that is
normally distributed (in either source or binary form) with the major
components (compiler, kernel, and so on) of the operating system on
which the executable runs, unless that component itself accompanies
the executable.

  It may happen that this requirement contradicts the license
restrictions of other proprietary libraries that do not normally
accompany the operating system. Such a contradiction means you cannot
use both them and the Library together in an executable that you
distribute.

  7. You may place library facilities that are a work based on the
Library side-by-side in a single library together with other library
facilities not covered by this License, and distribute such a combined
library, provided that the separate distribution of the work based on
the Library and of the other library facilities is otherwise
permitted, and provided that you do these two things:

    a) Accompany the combined library with a copy of the same work
    based on the Library, uncombined with any other library
    facilities. This must be distributed under the terms of the
    Sections above.

    b) Give prominent notice with the combined library of the fact
    that part of it is a work based on the Library, and explaining
    where to find the accompanying uncombined form of the same work.

  8. You may not copy, modify, sublicense, link with, or distribute
the Library except as expressly provided under this License. Any
attempt otherwise to copy, modify, sublicense, link with, or
distribute the Library is void, and will automatically terminate your
rights under this License. However, parties who have received copies,
or rights, from you under this License will not have their licenses
terminated so long as such parties remain in full compliance.

  9. You are not required to accept this License, since you have not
signed it. However, nothing else grants you permission to modify or

distribute the Library or its derivative works. These actions are
prohibited by law if you do not accept this License. Therefore, by
modifying or distributing the Library (or any work based on the
Library), you indicate your acceptance of this License to do so, and
all its terms and conditions for copying, distributing or modifying
the Library or works based on it.

  10. Each time you redistribute the Library (or any work based on the
Library), the recipient automatically receives a license from the
original licensor to copy, distribute, link with or modify the Library
subject to these terms and conditions. You may not impose any further
restrictions on the recipients' exercise of the rights granted herein.
You are not responsible for enforcing compliance by third parties with
this License.

  11. If, as a consequence of a court judgment or allegation of patent
infringement or for any other reason (not limited to patent issues),
conditions are imposed on you (whether by court order, agreement or
otherwise) that contradict the conditions of this License, they do not
excuse you from the conditions of this License. If you cannot
distribute so as to satisfy simultaneously your obligations under this
License and any other pertinent obligations, then as a consequence you
may not distribute the Library at all. For example, if a patent
license would not permit royalty-free redistribution of the Library by
all those who receive copies directly or indirectly through you, then
the only way you could satisfy both it and this License would be to
refrain entirely from distribution of the Library.

If any portion of this section is held invalid or unenforceable under any
particular circumstance, the balance of the section is intended to apply,
and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any
patents or other property right claims or to contest validity of any
such claims; this section has the sole purpose of protecting the
integrity of the free software distribution system which is
implemented by public license practices. Many people have made
generous contributions to the wide range of software distributed
through that system in reliance on consistent application of that
system; it is up to the author/donor to decide if he or she is willing
to distribute software through any other system and a licensee cannot
impose that choice.

This section is intended to make thoroughly clear what is believed to
be a consequence of the rest of this License.

  12. If the distribution and/or use of the Library is restricted in
certain countries either by patents or by copyrighted interfaces, the
original copyright holder who places the Library under this License may add
an explicit geographical distribution limitation excluding those countries,
so that distribution is permitted only in or among countries not thus
excluded. In such case, this License incorporates the limitation as if
written in the body of this License.

  13. The Free Software Foundation may publish revised and/or new
versions of the Lesser General Public License from time to time.
Such new versions will be similar in spirit to the present version,
but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Library
specifies a version number of this License which applies to it and
"any later version", you have the option of following the terms and
conditions either of that version or of any later version published by

the Free Software Foundation. If the Library does not specify a
license version number, you may choose any version ever published by
the Free Software Foundation.

  14. If you wish to incorporate parts of the Library into other free
programs whose distribution conditions are incompatible with these,
write to the author to ask for permission. For software which is
copyrighted by the Free Software Foundation, write to the Free
Software Foundation; we sometimes make exceptions for this. Our
decision will be guided by the two goals of preserving the free status
of all derivatives of our free software and of promoting the sharing
and reuse of software generally.

<div align="center">NO WARRANTY</div>

  15. BECAUSE THE LIBRARY IS LICENSED FREE OF CHARGE, THERE IS NO
WARRANTY FOR THE LIBRARY, TO THE EXTENT PERMITTED BY APPLICABLE LAW.
EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR
OTHER PARTIES PROVIDE THE LIBRARY "AS IS" WITHOUT WARRANTY OF ANY
KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE
IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR
PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE
LIBRARY IS WITH YOU. SHOULD THE LIBRARY PROVE DEFECTIVE, YOU ASSUME
THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

  16. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN
WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY
AND/OR REDISTRIBUTE THE LIBRARY AS PERMITTED ABOVE, BE LIABLE TO YOU
FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR
CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE
LIBRARY (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING
RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A
FAILURE OF THE LIBRARY TO OPERATE WITH ANY OTHER SOFTWARE), EVEN IF
SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH
DAMAGES.

<div align="center">END OF TERMS AND CONDITIONS</div>

<div align="center">How to Apply These Terms to Your New Libraries</div>

  If you develop a new library, and you want it to be of the greatest
possible use to the public, we recommend making it free software that
everyone can redistribute and change. You can do so by permitting
redistribution under these terms (or, alternatively, under the terms of the
ordinary General Public License).

  To apply these terms, attach the following notices to the library. It is
safest to attach them to the start of each source file to most effectively
convey the exclusion of warranty; and each file should have at least the
"copyright" line and a pointer to where the full notice is found.

    <one line to give the library's name and a brief idea of what it does.>
    Copyright (C) <year> <name of author>

    This library is free software; you can redistribute it and/or
    modify it under the terms of the GNU Lesser General Public
    License as published by the Free Software Foundation; either
    version 2.1 of the License, or (at your option) any later version.

    This library is distributed in the hope that it will be useful,
    but WITHOUT ANY WARRANTY; without even the implied warranty of
    MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU
    Lesser General Public License for more details.

BSD 3-clause license

Apache License, Version 2.0

transformation or translation of a Source form, including but
not limited to compiled object code, generated documentation,
and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or
Object form, made available under the License, as indicated by a
copyright notice that is included in or attached to the work
(an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object
form, that is based on (or derived from) the Work and for which the
editorial revisions, annotations, elaborations, or other
modifications
represent, as a whole, an original work of authorship. For the
purposes
of this License, Derivative Works shall not include works that remain
separable from, or merely link (or bind by name) to the interfaces
of,
the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including
the original version of the Work and any modifications or additions
to that Work or Derivative Works thereof, that is intentionally
submitted to Licensor for inclusion in the Work by the copyright
owner
or by an individual or Legal Entity authorized to submit on behalf of
the copyright owner. For the purposes of this definition, "submitted"
means any form of electronic, verbal, or written communication sent
to the Licensor or its representatives, including but not limited to
communication on electronic mailing lists, source code control
systems,
and issue tracking systems that are managed by, or on behalf of, the
Licensor for the purpose of discussing and improving the Work, but
excluding communication that is conspicuously marked or otherwise
designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity
on behalf of whom a Contribution has been received by Licensor and
subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of
   this License, each Contributor hereby grants to You a perpetual,
   worldwide, non-exclusive, no-charge, royalty-free, irrevocable
   copyright license to reproduce, prepare Derivative Works of,
   publicly display, publicly perform, sublicense, and distribute the
   Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of
   this License, each Contributor hereby grants to You a perpetual,
   worldwide, non-exclusive, no-charge, royalty-free, irrevocable
   (except as stated in this section) patent license to make, have made,
   use, offer to sell, sell, import, and otherwise transfer the Work,
   where such license applies only to those patent claims licensable
   by such Contributor that are necessarily infringed by their
   Contribution(s) alone or by combination of their Contribution(s)
   with the Work to which such Contribution(s) was submitted. If You
   institute patent litigation against any entity (including a
   cross-claim or counterclaim in a lawsuit) alleging that the Work
   or a Contribution incorporated within the Work constitutes direct
   or contributory patent infringement, then any patent licenses
   granted to You under this License for that Work shall terminate
   as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the
   Work or Derivative Works thereof in any medium, with or without
   modifications, and in Source or Object form, provided that You
   meet the following conditions:

   (a) You must give any other recipients of the Work or
       Derivative Works a copy of this License; and

   (b) You must cause any modified files to carry prominent notices
       stating that You changed the files; and

   (c) You must retain, in the Source form of any Derivative Works
       that You distribute, all copyright, patent, trademark, and
       attribution notices from the Source form of the Work,
       excluding those notices that do not pertain to any part of
       the Derivative Works; and

   (d) If the Work includes a "NOTICE" text file as part of its
       distribution, then any Derivative Works that You distribute must
       include a readable copy of the attribution notices contained
       within such NOTICE file, excluding those notices that do not
       pertain to any part of the Derivative Works, in at least one
       of the following places: within a NOTICE text file distributed
       as part of the Derivative Works; within the Source form or
       documentation, if provided along with the Derivative Works; or,
       within a display generated by the Derivative Works, if and
       wherever such third-party notices normally appear. The contents
       of the NOTICE file are for informational purposes only and
       do not modify the License. You may add Your own attribution
       notices within Derivative Works that You distribute, alongside
       or as an addendum to the NOTICE text from the Work, provided
       that such additional attribution notices cannot be construed
       as modifying the License.

   You may add Your own copyright statement to Your modifications and
   may provide additional or different license terms and conditions
   for use, reproduction, or distribution of Your modifications, or
   for any such Derivative Works as a whole, provided Your use,
   reproduction, and distribution of the Work otherwise complies with
   the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise,
   any Contribution intentionally submitted for inclusion in the Work
   by You to the Licensor shall be under the terms and conditions of
   this License, without any additional terms or conditions.
   Notwithstanding the above, nothing herein shall supersede or modify
   the terms of any separate license agreement you may have executed
   with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade
   names, trademarks, service marks, or product names of the Licensor,
   except as required for reasonable and customary use in describing the
   origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or
   agreed to in writing, Licensor provides the Work (and each
   Contributor provides its Contributions) on an "AS IS" BASIS,
   WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or
   implied, including, without limitation, any warranties or conditions
   of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A
   PARTICULAR PURPOSE. You are solely responsible for determining the
   appropriateness of using or redistributing the Work and assume any

risks associated with Your exercise of permissions under this
License.

8. Limitation of Liability. In no event and under no legal theory,
   whether in tort (including negligence), contract, or otherwise,
   unless required by applicable law (such as deliberate and grossly
   negligent acts) or agreed to in writing, shall any Contributor be
   liable to You for damages, including any direct, indirect, special,
   incidental, or consequential damages of any character arising as a
   result of this License or out of the use or inability to use the
   Work (including but not limited to damages for loss of goodwill,
   work stoppage, computer failure or malfunction, or any and all
   other commercial damages or losses), even if such Contributor
   has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing
   the Work or Derivative Works thereof, You may choose to offer,
   and charge a fee for, acceptance of support, warranty, indemnity,
   or other liability obligations and/or rights consistent with this
   License. However, in accepting such obligations, You may act only
   on Your own behalf and on Your sole responsibility, not on behalf
   of any other Contributor, and only if You agree to indemnify,
   defend, and hold each Contributor harmless for any liability
   incurred by, or claims asserted against, such Contributor by reason
   of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

   To apply the Apache License to your work, attach the following
   boilerplate notice, with the fields enclosed by brackets "[]"
   replaced with your own identifying information. (Don't include
   the brackets!) The text should be enclosed in the appropriate
   comment syntax for the file format. We also recommend that a
   file or class name and description of purpose be included on the
   same "printed page" as the copyright notice for easier
   identification within third-party archives.
